- Site Committees
  - Dr. Sadeh will present to teachers about Social Emotional today for teacher in-service
  - Staff will also receive training and sign needed form for AzMerit and AIMS Science
- General Information
  - Student Brandon Barkwell won the Community Award for raising \$20,000 at a walk for the Alzheimer's Association. His father was diagnosed with younger-onset Alzheimer's and recently passed away.
  - We have more Chaparral students admitted to San Diego State than any other AZ High School
  - Update from Guidance: Open Enrollment now done through the sites. The process went well at Chaparral. One event for OE finished, 3 more events will happen. Chaparral accepted 208 open enrollment students.
- Community concerns
  - Last year there was talk about having registration sessions in the evening or later (books, schedule change, etc.).

- Lockers: District surveyed needs at sites. Chaparral noted a need for lockers. A parent representative began investigating the need on the campus and problems with the current lockers. Cost-saving findings have been found through this investigation. District has already been on campus. Work is being done to find the costs of these projects. 1<sup>st</sup> step is maximizing what we have (moving to maximize use) and cleaning up what we have. Chpts gave the parent representative good feedback and are willing to donate when documentation is in place.
