

Core Minutes
8/17/16

- Minutes from 5/4 approved
- Introductions
- Tax Credit:
 - Leslie Rold will be tutoring 2 hours per week/ 36 weeks \$1080
 - Field Trip to Sysco to shadow chefs Bus \$250, Sub \$100 350
- SIP
 - The teachers met six times this summer and analyzed data of student's performance on the standardized tests. Although the data show that Chaparral students are performing well, the area of weakness identified and decided to work on for this year in School Improvement is reading information text and pulling information. The students will be completing a writing assignment quarters 1&3 and reflecting on their writing quarters 2&4.
 - Goals for SIP were handed out to all members:
 1. PLC writing and self-reflective writing
 2. Adjusting teaching depending on data from students, common assessments
 3. Sending positive emails to parents concerning students, continued comprehensive freshman transition, academic support and intervention for all students.
- Studies show and our counselors notice there has been an increase in anxiety and depression among students (due to pressure to perform). Parents and teachers all need to be aware of how we are talking with kids – celebrating effort and not always the grade outcome
